MEMORIAL

In loving memory of our dear son and brother, William Robert Glasscock, who departed this life a year and six months ago. A shadow fell upon us when one year and six months ago he passed away. And Jesus, our dear Jesus, took our Robert dear away. His sweet face we see no more; his voice we loved is stilled, and all that is left for memory is his dear grave on a distant hill. Sadly missed by Father, Mother, Brother and Sisters.

CARD OF THANKS.

We desire to thank our friends and relatives for the kindness shown us at the death of our loving wife and daughter, Anna Mae, especially Rev. Huntsman for his kind and consoling words.

Husband, Roy T. Peckenpaugh

LALLEY LIGHT and POWER

For Farms and Rural Homes

Announcement!

We have secured the exclusive franchise for selling the well-known Lalley Electric Light and Power Plant in this territory.

For some time we have noticed that the progressive farmers of this section are realizing that economical and reliable electricity is just as important—if not more so—to the proper development of their farming business and to the comfort of their homes, as the telephone, the daily mail, the automobile, and the most valuable labor-saving farm machinery.

It is our intention to give the residents of this community the very best material and the best of service for its maintenance.

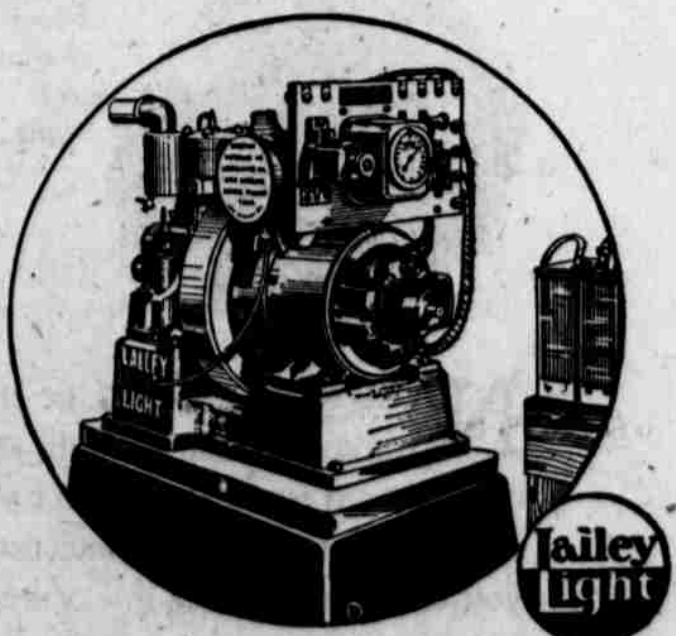

When we decided to sell an electric light and power plant, we set out to secure that plant which, in our opinion, had proven itself to be the most reliable, the most economical, and in every way the best investment for our patrons.

We chose the Lalley Light plant, manufactured by the Lalley Light Corporation of Detroit, Michigan, one of the largest manufacturers engaged exclusively in the production of farm electrical equipment.

Our Personal Word Is Behind the Lalley

The Lalley Light plant has been in successful use on farms and elsewhere for ten years. It has only three moving parts; it is ball bearing equipped; it will furnish ample electric light for your home and outbuildings, and electric power to operate a complete water system, a churn, vacuum cleaner, an electric iron, a washing machine, an electric fan, and any other domestic electrical apparatus you may desire or need.

Come in and visit us so that we can show you this Lalley Light plant, or telephone us and we will go to your house.

Lalley Light is a complete unit—engine and generator—with 16 cell storage battery. It supplies ample electricity for lights, water pump, washing machines, sweeper, cream separator, tanning mill, iron, etc.
